SECTION 275

ROCK PLATING

PROJECT: _____

TECHNICIAN: _____

REVIEW DATE: _____

REVIEWER: _____

ACTION	YES	NO	N/A	COMMENTS
Is rock plating being installed at the proper time of construction to protect the slopes?				
Is the detailed type of Rip Rap being utilized?				
Is Type 2 geotextile being used?				
Has the geotextile been unrolled perpendicular to the centerline of the roadway?				
Has the geotextile been overlapped 5 ft. for rolls that do not reach the bottom of the area and is the top roll overlapped over the lower roll?				
Are adjacent rolls of geotextile overlapped 18"?				
Is subsurface drainage required?				
If ABC is required, has it been compacted?
